Week		Topics
	Chapter-II Elasticity	Basant Panchami
5	Ziascicity	Elasticity, Stress and Strain
		Hook's law Elastic constant and their relations
		Sunday
	Chapter-II Elasticity	Poisson's ratio, Torsion of cylinder and twisting couple Torsion of cylinder and twisting couple contd
6		Numerical and Problems
		Determination of coefficient of modulus of rigidity for the material of wire by Maxwell's needle
		Sunday
7	Chapter-II Elasticity	Review Cantilever and Centrally loaded beam Numerical and Problems
		Bending of beam (Bending moment and its magnitude) Numerical and Problems
		Determination of Young's modulus for the material of the beam
		Sunday
	Chapter-II Elasticity	Elastic constants for the material of the wire by Searle's method
8		Shivratri
		Revision / Problems
		Sunday
	Chapter-II Kinetic theory of gases-I	Assignment – 1
		Assumption of Kinetic theory of gases
9		Numerical Problems
