### ABSTRACT

Diseases of vegetable crops are one of the main limiting factors in the modern agriculture, holding potential for a devastating effect on the growth, development and yield of vegetables. Over the past few years, there has been a strong upsurge in the demand for tomato. Root wilt of tomato caused by *Fusarium* species is considered to be a serious threat in the tomato fruit production all over the world and biological control is a remedy. Management of plant diseases through manipulation of associated microorganisms restores the biological equilibrium. Plant-microbe interactions are one of the up-to-date events that contribute for the sustainable agriculture and hence all

## UNSUNG HEROES OF HARYANA: MILITARY HISTORY A DEPRIVED FIELD IN HARYANVI HISTORICAL CIRCLES

---

*Dr. Atul Yadav*

Warfare being an integral component of human civilization, nations are generally defined by the role played by their Armed Forces in shaping their history. The story of Army has neither a beginning, nor an end; one has to, therefore, choose a point in time to start it. The story begins in 1914.

The ancient wars in India have been immortalized in the epics of Ramayna and Mahabhart. In the medieval time, several invaders from the west drew the local kings and rulers into wars, from time to time. This, of necessity, created a war-culture in the north-western region of the country. Thus several fighting-fit clans were created.

The foundations of the modern Armed Forces in India were laid, in the ninetieth century, by the British rulers, to serve their purpose. They introduced a systematic policy of recruitment, training, deployment, organization, welfare, etc. Subsequently indianization of our Armed Forces took its course, but it was a baptism by fire and a saga of heroism and adventure. The Indian forces played a crucial role in the two World Wars, fighting shoulder to shoulder with the allied forces in foreign lands. After gaining independence in 1947, India has fought four wars with Pakistan-the latest being Kargil (1999). One war, in 1962, was thrust upon India by China. The 'proxy war' through intermittent Pakistani infiltrations, in Jammu and Kashmir, has been continually bleeding the Army and the Para-military Forces.
